

CLAIMS

What is claimed is:

1. An unmanned durable goods sales facility comprising a publicly accessible commercial property site containing a building with automatic electronically controlled doorways which houses durable goods for customers to buy by leaving a record of receipt for the said facility's operators of the specific durable goods purchased by the said customers.
2. An unmanned durable goods sales facility comprising a publicly accessible commercial property site containing an automatic electronically controlled barrier enclosing an area containing a building with automatic electronically controlled doorways which houses durable goods for customers to buy by leaving a record of receipt for the said facility's operators of the specific durable goods purchased by the said customers.
3. An unmanned durable goods sales facility comprising a publicly accessible commercial property site containing an automatic electronically controlled fence enclosing an area containing a building with automatic electronically controlled doorways which houses durable goods for customers to buy by leaving a record of receipt for the facility's operators of the specific durable goods purchased by the said customers.

4. An unmanned durable goods sales facility as described in claim 1 wherein the said facility possesses surveillance cameras that record which customers enter the said facility and what durable goods such customers take from the sales facility.

5. An unmanned durable goods sales facility as described in claim 2 wherein the said facility possesses surveillance cameras that record which customers enter the said facility and what durable goods such customers take from the sales facility.

6. An unmanned durable goods sales facility as described in claim 3 wherein the said facility possesses surveillance cameras that record which customers enter the said facility and what durable goods such customers take from the sales facility.

7. An unmanned durable goods sales facility as described in claim 4 wherein the said facility possesses electronic means for alerting the facility's operators that a customer is in distress.

8. An unmanned durable goods sales facility as described in claim 5 wherein the said facility possesses electronic means for alerting the facility's operators that a customer is in distress.

9. An unmanned durable goods sales facility as described in claim 6 wherein the said facility possesses electronic means for alerting the facility's operators that a customer is in distress.

10. An unmanned durable goods sales facility as described in claim 1 wherein the said durable goods are heating and air conditioning equipment.

11. An unmanned durable goods sales facility as described in claim 2 wherein the said durable goods are heating and air conditioning equipment.

12. An unmanned durable goods sales facility as described in claim 3 wherein the said durable goods are heating and air conditioning equipment.

13. An unmanned durable goods sales facility as described in claim 4 wherein the said durable goods are heating and air conditioning equipment.

14. An unmanned durable goods sales facility as described in claim 5 wherein the said durable goods are heating and air conditioning equipment.

15. An unmanned durable goods sales facility as described in claim 6 wherein the said durable goods are heating and air conditioning equipment.

16. An unmanned durable goods sales facility as described in claim 7 wherein the said durable goods are heating and air conditioning equipment.

17. An unmanned durable goods sales facility as described in claim 8 wherein the said durable goods are heating and air conditioning equipment.

18. An unmanned durable goods sales facility as described in claim 9 wherein the said durable goods are heating and air conditioning equipment.
